REPORT OF
WATERVILLE VALLEY POLICE DEPARTMENT

This year the Police Department was fairly busy. This past summer the routine patrols were carried out around the Valley.

There were about 10 auto accidents, -- one very serious, the rest of small importance.

I had 5 cases in Plymouth District Court:

- 2 speeding, found guilty, fined \$10 each
- 1 driving after revocation, pleaded guilty, fined \$25
- 1 petty larceny, pleaded guilty, fined \$50 (could not raise money, worked it out at the county farm)
- 1 larceny of skis, pleaded guilty, fined \$100

REPORT OF
WATERVILLE VALLEY FIRE DEPARTMENT

During the summer and fall the Waterville Valley Fire Department met quite regularly with fair attendance. We practiced some of the basic fundamentals of fire fighting.

In August the Forestry truck was brought home from being modified. On the way into town it broke down.

This winter Kip Hawkins, state fire instructor, has come in to help us with some basic fundamentals.

Campton was called to put out three small fires at the Condominium site. One car caught fire in the Mt. Tecumseh parking lot and with the help of some of the mountain crew, I put that out.

During the summer I inspected some of the houses in town in regard to fire safety. This winter the state inspector from the Fire Marshal's office inspected the lodges, restaurant and base lodge at Mt. Tecumseh.

REPORT OF SUPERINTENDENT OF SCHOOLS
1968-69

Hereby submitted is my Annual Report as Your Superintendent of Schools:

A School opened in the district in the fall of 1968 after a lapse of many years. We were fortunate in securing the services of Mildred Uhlman as the teacher. She has many years of successful experience and has previously taught multiple grades. It does not seem like much of a problem to teach several grades in one room but it is a real art that recent graduates from teacher training institutions are not trained to handle.

School began very well in September and from personal observation and reports the pupils are making fine progress.

From the adopted budget the school was supplied with the most modern textbooks in all subject matter areas as well as most of the audio-visual materials so necessary today in a modern school. We now are taking advantage of educational television and using some of the programs from Channel 11 in Durham, N. H. The use of the local library and the book mobile provide good reading experiences for the children and we are adding to the books as funds permit. In the budget for next year a set of junior encyclopedias has been included and some science materials to be used for experimentation and demonstration of scientific principles. We also have included funds to provide playground equipment for the school. This can also double as a facility for children to use during the summer months.

I am not sure how fast the school will grow but some thought should be given now about the future. Our school is comfortable and serves the purpose for the numbers of pupils we now have very well but space will not allow for the addition of many more students. I would recommend a study committee be appointed at the district meeting, to report their findings and recommendations a year from now. If they wished to have me act as an advisor to the group I would be happy to do so.

We have had a good year to date. Better than could normally be expected when a school opens for the first time. The teachers aide has been very helpful and in my opinion has improved the calibre of instruction. This should continue on an expanded basis.

In closing I would simply state your children are getting a good basic, modern education. Please feel free to contact me if you have questions concerning the school or your children.
